ABOUT PARKinCPH

PARKinCPH is a digital parking portal developed by By & Havn for management of digital parking permits for By & Havn parking facilities in Ørestad, Nordhavn, Marmormolen, Søndre Frihavn and Nordre Toldbod.

PARKinCPH is developed as a web portal that can be accessed via an internet browser from PC, tablet and smartphone.

PARKinCPH offers purchases of different digital parking permits as monthly subscriptions and short-term parking (hourly parking).

Parking subscriptions are renewed automatically every month until terminated. Termination also occurs via PARKinCPH.

For each parking permit a vehicle is attached. This is done by entering the vehicle's registration number. Parking control is performed by number plate scanning and it is therefore important that the registration number is entered correctly. Only one vehicle can be connected at a time per parking permit. It is possible at any time to change the registration number of the relevant parking permit via PARKinCPH.
